President's Message

— by Bob Schaefer

The next meeting of the Guild will be Thursday, December 6, 6:30 PM at Woodcraft Supply. The program will be presented by Bonnie Klein. Those of you who have been fortunate enough to attend her previous demonstrations know that the program will be interesting and informative. I understand that it will be Christmas related. The last time Bonnie did a presentation resulted in my making twenty spatulas which were great stocking stuffers. This is a program that is not to be missed.

The evening will also be festive. I am soliciting participation from members to bring something in the way of cookies, pastries, candy and the like. Please contact me (bobanddoriss@earthlink.net) so that we will know what and how much to expect. Your officers will also participate.

To my great disappointment I was unable to attend the October 25 meeting, done by Michael Dresdner. I have heard several reports that it was truly excellent which is typical of Michael. He is an inexhaustible source and a top presenter and demonstrator.

This will be my final message as president, having served as treasurer and then membership secretary and for the last three years as president. After the December 6 meeting I will no longer be your president.

With this in mind I have designated a provisional ad hoc committee to facilitate and assure a smooth transition for the future leadership of the Guild. If anyone would like to or wishes to participate in or on the committee, he or she would be most welcome. Just let me know in a timely manner.

Other important issues are addressed on the back side of your membership renewal letter. If you have not already done so, please give careful thought to your responses when you send in your dues. Your responses are essential to the future of the Guild.

The first meeting in 2013 will be Thursday, January 31, 6:30 PM at Woodcraft Supply. The program will be a MEGA Show and Tell--so you have several weeks to make something and show your productivity and woodworking interests.

A final comment. The largest issue is what members can do to help the Guild in its overall mission (something itself which requires clarification) and a call for increased participation. Thank you for the privilege of being your president and officer these past years. I'll see you December 6.

Guild Officers

**President—Open Position
Membership—Allen McCall**

Treasurer—Chris Green

Secretary—Rick Tydings

**Programs—Al Falco, Don
McNutt, Jack Martin, Ed Moore,
Ray Ross**

**Raffle—Tom Murray, Herb
Stoops**

The following are volunteer positions and are not Officers of the Guild:

For Sale

Jet 6" jointer - "long bed (45") Model #JJ605, or JJ6CS (depending on your eyesight). 3/4 horse motor wired for 110, but adaptable to 220. At the moment, it's on a rolling base built for another purpose which isn't part of the deal. In Ballard.

My shopmate is bringing in a new Laguna jointer, so the JET has to move out. I bought it second hand about 12-15 years ago for \$300. It has given great service during the building of much furniture and two boats. The Laguna better be good! I'm asking \$200....With a "10% Guild Member discount", that would be \$180!

A forum for woodworkers of all skill levels to share their common interests

Monthly Tip

Nail File Sander

I often find that the smallest glueup flaws in a project are the hardest to clean up. But a metal fingernail file is just the right size for getting into those hard-to-reach areas where glue squeezes out.

I picked up the file shown in the photo at the drugstore. To make it easier to work with, I ground the tip of the file to a 45° angle. Then I put a sharp bevel on the tip to create a mini-chisel. The edge on the file gets into the smallest nooks of my project to clean up any trouble spots.
