President's Message

— by Bob Schaefer

The August 26 meeting was held at Urban Hardwoods where we were able to see some truly gorgeous large slabs of various woods (some of them up to 700 years old) crafted into truly impressive and gigantic table tops--the kind of items one sees in corporate boardrooms or dwellings of the rich and famous. Smaller objects such as bowls and coffee tables were also seen. Steve from Urban Hardwoods did a nice job of explaining the operation. Our thanks also to Jim Newsom for making the evening possible.

If you did not go to the meeting it would still be worth your time to drop in there and have a look.

For "Show and Tell" Dennis Harrison showed us yet another one of his beautiful marquetry pictures. This is virtuoso technique. Sally Wright, in a departure from intarsia showed us some simple, yet elegant stylishly crafted candle holders. Ed Moore showed a large diameter (I would guess 10 to 12 inches) sphere which he turned from a manzanita burl. All the show and tell items were impressive and attractive.

The next meeting will be at 7 PM, September 30, 2010 at the workshop of Jack McDaniel in Bothell. A brief description of the program and instructions how to get there are given elsewhere in this issue. This information was provided by Ed Moore of the Program committee. Thanks to Ed Moore for arranging this program.

I have spoken with Jack McDaniel and I think we are definitely in for a real treat. Coffee and light refreshment will be provided. This is one not to be missed.

Unfortunately Steve Krauss, newsletter editor, publisher and photographer extraordinaire was unable to attend the last meeting--hence no photographs--which would have been really great. We request that some, any, or all of you bring a digital camera for just such a possibility. Even when Steve attends you just might want some photos of your own. We will (yes will) have a raffle and Show and Tell at the next meeting. Our host might even provide some items for the next meeting. I'll see you at the next meeting

Urgent Message: Woodcraft Show Volunteers Needed

Woodcraft Supply is putting on their big annual woodworking show/sale October 1, 2, and 3. Northwest woodworkers Guild will have a table or tables where we can give information about our group and try to get new members. I urgently need volunteers to be at our table during the show time. If you are interested in helping the guild (and I hope you are), please contact me at 206 282-4905 or e-mail me at boband-doriss@earthlink.net. I need timely replies so that I can make out the schedule. I thank you all in advance for your help.

Kent, WA 98032

Please present your current membership card to receive your discount.

Map To Jack McDaniel's Shop: 4705 240th St SE, Bothell, WA 98021

September Meeting

Jack McDaniel will host our meeting at his shop in Bothell. If you have never seen his shop your in for a real treat. He has everything up to and including a 3 or 4 axis CNC machine. Jack's talk will cover the building of his shop and center on the development and production of his Eliminator Tool. It has been well received in the wood turning community and is sold by most major woodworking stores. You can find a map at www.AOCB.com the web site for his dog training facility. The start time will be our normal 7:00. Parking is abundant, just take a right turn when you enter his property and drive to the end of the road. Park anywhere on the circle drive or if that fills you can park out front where there are several parking areas. The shop can be seen from the circle drive area. It is HUGE and hard to miss.
